Tammany Bemoerats here say that he will not be reclected after the April primaries and that Edwin Harris will be chosen in his place. The Tammany men say that a "practical" Democrat is needed at the head of the state committee, and that while Mr. Osborn gives a certain amount of class to the committee he is not in close enough.

Privately they sympathize with it, but for the sake of appearances they are keeping their feelings under cover. They fear that some of this resentment will crop out at the meeting of the state committee here on Thursday and they are exerting themselves to prevent it.

If me a staf Composite of The Thomas, Albany, Jan. 23—'is Governor Whitman the leader of the Republican Party in this state."

This question has been asked dozens the beginning of the legislative assistion, and comparatively few persons have been able to answer it. When Mr. Whitman was elected Governor a good many Republicans took it to mean that the contribution of the Bernard Hard and the fore Governor a good many Republicans took it to mean that the party and that he will be contributed in public any of those things which characterize a successful leader, and the Governor who were leaders as well.

Thus far Governor Whitman has not exhibited in public any of those things which characterize a successful leader, and the Governor dose not assert himself in a way that will leave no doubt of his intentions, confident all the time that he will be the people of the state back of him.

The successful that they are conservative candidate and the proposed of the state to the other. He can do so with consuming way that will be one of the state to the other. of the state committee here on Thursday and they are exerting themselves to prevent it.

The meeting of the state committee is likely to prove interesting, for the reports received here indicate that there is no great amount of enthusiasm for the plan to held an anoficial convention. Technically this convention would be to agree on the "Big Four" to the St. Louis convention, but its actual purpose would be to indores the Wilson administration.

The "straight goods" Demecrats are finding it hard to swallow any such plan, and it is not unlikely that it will cause a fight at Thursday's meeting. Charles F. Murphy will have control of the committee, and most anything he says will go. Tammany's feelings toward the President are well known, and if there is any indorsement of President Wilson or his policies it will come by the grace of Murphy, and no one else.

McAdoo Won't Be Delegate.

It is not the present intention of the Democratic organization to make Secretary of the Treasury McAdoo one of the delegates-at-large. The Democratic learning was that they could need the week she was still determined the reports for which his grandfather was famous. When old enough he will need to was famous. Philanthropy You Can Afford

How often have you wished that you had money enough to take care of the poor and helpless?

What satisfaction is there so great as the knowledge that your kindness has brought happiness to a despairing fellow creature?

Well, here's your chance to know yourself, to prove to your conscience that you haven't been bluffing.

There is a Belgian child right at your elbow, now.

His wasted, ragged little body is across the seas, but his spirit is talking to you.

Give him aid! Save his life! He'll die of want if you turn away.

Here's your chance to be a philanthropist for so very little.

Here's a chance to save a life without risking yours. A child saved from death in the winter fields is just as much saved as though he were spectacularly pulled out of the water or carried out of a burning building.

There are three million ragged, barefoot outcasts facing a worse death than drowning-enduring the slow torture, the horrible agony of famine and exposure.

Will you save one of them?

The job is up to America. No other country can do the work.

It's a privilege to share in your country's superb enterprise.

It's an honor to contribute to such a cause.

Don't start talking war-don't confuse the issue by arguing sympathy with this nation or that.

It isn't a question as to whether you believe in the rights of Germany or England, France or Austria, but whether you believe in death by cold and hunger.

> And believing without acting isn't worth a shoestring. Belgium can't wear sympathy.

Belgium has had pity enough.

She must have clothes and shoes—NOW.
